### Fund manager's report

Source : Groupama AM

As of January 1, 2025, the fund no longer meets the new SRI Label requirements under version 3. Nevertheless, the discontinuation of the SRI label does not entail any changes to the fund's investment process.

The fund will continue to adopt a responsible investment approach, maintaining its environmental, social and governance (ESG) commitments in line with its initial investment strategy.

## ESG performance indicators definition

### Carbon intensity

The carbon intensity is the weighted average greenhouse gas (GHG) emissions per million euros of revenue. Scope 1, 2 and 3 emissions are taken into account.

Scope 1 and 2 correspond to emissions directly emitted by the company and those indirectly linked to its energy consumption. Scope 3 emissions are those emitted by the company's suppliers and those emitted during the use and end of life of the products it creates.

### Green Part

The green share is the percentage of a company's revenue devoted to economic activities that contribute positively to energy and ecological transition.

Source: Clarity AI, Groupama AM calculations

### Implied temperature

Implied temperature is the difference between a company's projected carbon intensity trajectory and the reference trajectory of a climate scenario compatible with the Paris Agreements.
